OBJECTIVE | Driven high school student with a passion for coding and good design

SKILLS & ABILITIES | Experience working with different types of websites — both front-end (React) and back-end (Flask and Node)

Strong sense of good design, both in websites and general projects

Proficiency in Python, C++, Java, Lua, Matlab (Octave), Javascript, and Coffeescript

Linux administrative skills, including managing and hosting databases and websites

Experience in designing and developing multi-platform video games

Passionate speaker, good at managing large groups of people

Proficiency in Russian and Spanish

EXPERIENCE | **Event organizer at StudentRND**

September 2018 – present

I helped organize CodeDay by writing to sponsors and acting as a mentor during the event.

Front-end developer at Link Media LLC

June 2017 – present

Working at a startup has given me valuable experience in real-world programming.

Internship at Art Lebedev Studio, Moscow

June 2017 - July 2017

I developed my sense of design while working at one of Russia's most renowned design studios.

High school policy debater

September 2016 – present

Debate has helped me perfect my public speaking and stress management skills.

Student council senator

September 2016 - July 2017

Representing my freshman class in student council helped establish my role as a strong leader.

EDUCATION | 4.0 GPA sophomore at Northside College Prep

2 years of IB education — **IB student of the year 2013-2014**
